

Coronavirus : TIMC obstructs!

**Let's work remotely
and let's protect each other!**

- **Starting tomorrow, March 16, and until further notice, anything that can be done remotely **MUST** be done remotely. You are only allowed to come to your workplace if your presence is stated in TIMC's « Activity Continuity Plan". If you are not in this case, you are allowed to work at distance.**
- **When your presence at your workplace is essential for the continuity of the public research service, **systematically equip yourself, as soon as you enter our premises, with makeshift masks.** The video that you will find on our website <https://www-timc.imag.fr/> explains how to make it, bring the necessary equipment and share it with your colleagues.**

Our solidarity and discipline can save lives!

Philippe Cinquin, TIMC Director
